CARBOHYDRATE, Job with TPEMBER

1. On 21 January 1953, CARBOHYDRATE was successfully introduced to [ ] It was agreed that CARBOHYDRATE would seek legal recognition as a political refugee from the East Sector, falling into category A. In order to facilitate and expedite his recognition and attempting to avoid as many interrogations by either Allied or German organizations, a cover story was devised making CARBOHYDRATE an informant of TPEMBER since February 1950. [ ] who has a few informants not known to other TPEMBERITES, proposed that he would back stop any inquiries about CARBOHYDRATE's association with TPEMBER, by stating that he had handled the man since August 1950.

2. As far as the other TPEMBERITES are concerned, once CARBOHYDRATE has been placed into his position within TPEMBER HQ, they will be told that [ ] has selected this man. [ ] assured me that no further questions will be asked by the other employees of TPEMBER.

3. [ ] assigned CARBOHYDRATE the TPEMBER-name of Helmut DORMANN. His real name will only be known to [ ] and [ ]

held responsible. [ ] stated this as a positive fact and being a lawyer and the head of TPEMBER, I had to believe him. However, should an official check of the TPEMBER books occur, we would have to reveal the real name of CARBOHYDRATE. I consider this a calculated risk.

[ ] CARBOHYDRATE's official cover story vis a vis [ ] is that he has worked for an unidentified intelligence organization since 1946 and was referred to [ ] by HICOG.

6. Before installing CARBOHYDRATE in his official position with TPEMBER, he will be carriaged and assessed by [ ]

7. A detailed report on CARBOHYDRATE's exact position and function with TPEMBER will be submitted as soon as above tests have been completed. This report will also cover remedial actions which have been recommended during the past weeks to TPEMBER in order to correct certain situations which were proven to be security hazards. CARBOHYDRATE will be able to inform us whether our proposals have been implemented.
